

## Early Intervention Specialty Service Providers

The Massachusetts Department of Public Health has approved agencies to provide services to children with specialty service conditions, including hearing loss, vision loss, and Autism Spectrum Disorders. Children must be enrolled in certified Early Intervention programs to be eligible for these services. The Early Intervention program in which the family is enrolled makes the referral for these services.

### **Specialty Service Providers for Children with Autism Spectrum Disorders**

*Eligible children have a diagnosis of Autism Spectrum Disorder conferred by a physician or licensed psychologist*
